

Once again, the Greens failed to prove themselves superior. Despite the fact that they had the lead throughout the first half, Babylon could not hold on to it as FC Bruno kept fighting to get the full three points. Babylon was way better during the first half and they had many chances to score more goals. The Greens were unable to convert all the chances into goals. It was obvious that Babylon was lacking a finisher who would convert the lost chances to goals. The next game will be even harder for the Greens, because they will face the toughest team of the tournament; ME Warriors.
